

Real-Time Solutions for Today's Business...

Key Benefits:

- Fully Managed
- Full Integration
- Easy Setup
- Low Monthly Fees

"Hosted Exchange with BlackBerry is an ideal way for smaller organizations like ours to get Fortune 500-class email."

- Penta BlackBerry Client

Handheld synchronization with your desktop email, calendar, contacts, tasks and notes is now available at your fingertips no matter where you are, instantly!

That means you can compose, send, receive, and reply to emails in airports, restaurants, churches, hospitals, while riding in a taxi, bus, truck, or limo and have all of your messages delivered instantly! Messages that you reply to on your BlackBerry device will show as "replied-to" in Outlook - as if you were on your PC using Outlook! Updating your calendars, contacts, tasks, notes and email remotely has never been faster or more reliable.

- Fully hosted BlackBerry server, with 24x7 management.
- BlackBerry hosting includes all licenses, so you pay only a simple monthly fee.
- Two-way wireless synchronization of email and organizer information.
- Integrated phone, SMS, browser and organizer applications.
- Advanced security for enterprise and government organizations.
- Handheld configuration tool allows simultaneous software updates from one location.
- Reporting enables tracking and management of deployed devices.
- Local encryption of all data.
- Ability to open email attachments in popular document formats.

Your Applications Everywhere, Always™
